

Below is the info on the prong collars. I use the Herm. Sprenger Prong Collar which come from Germany. The size I use is the small prongs, (2.2mm). This is not the mini prongs. This size I use on all breeds. I put a snap on the collar, so it's real easy to put on and take off. The snap replaces one of the prongs.

Measure middle of neck for prong size, (half way between back of ears and withers). Order one size larger than neck measurement.. Sometimes the order form below doesn't line up correctly over E-mail.

The order form comes out in two pages.
